

Kurtzweil

1. Strophe

'Strong AI' recursive self improvement scenes
Moors Law is setting up instinctive Future Dreams
Mind explosion leads to greater Capability
Future Cyborgs with endless life expectancy

2. Strophe

Do robots really dream of electric sheeps
What about Hal acting out in Kubricks Space Oddity
Stanford research and Palo Altos Garage scenes
The Californian Think Tanks change our lifes in Reans

Refrain

John Connors Resistance Force is battling Skynets' synthetic machines
A T800 is such a perfect tool to wipe out human evolutionary dreams
I' m going to wonder how life will be in future post singularity
Are we god given creatures or just a serious threat to planet earths' security

Solo

3. Strophe

Philosophy of Mind asks about the Nature of thought
Alan Turing, Putnam, Searl , Rorty and Decartes
The mind body problem Dualism versus Monism
Can we really upload our minds to a digital platform to conserve

Refrain

John Connors Resistance Force is battling Skynets synthetic machines
A T800 is such a perfect tool to wipe out human evolutionary dreams
I' m going to wonder how life will be in future post singularity
Are we god given creatures or just a serious threat to planet earths security

Solo
